Online, blended and web supplemented courses are offered by SUNY Broome through Open SUNY and use the Blackboard Learning Management System. A current listing of Fully Online (or Blended) courses offered for a particular semester can be found on the SUNY Broome Website. To filter out a list of fully online or blended courses, follow the instructions below.

**Access the Take a Class area of the SUNY Broome Website.**

**To do this:**

1. Using a web browser, navigate to [http://www.sunybroome.edu](http://www.sunybroome.edu).

2. Scroll down beneath the animated banner on the page and click on the “TAKE A CLASS” link.

3. Scroll down on the “TAKE A CLASS” page and click on “Search Available Courses”. This link will bring you to Self-Service Banner where you can select the semester that you would like to search. To do this, click the dropdown arrow for the “Search by Term:” menu and click on the semester you are interested in. After the correct term is selected, click the “Submit” button.
4. The next screen will display the Class Schedule Search page. From here, you can search for courses in a variety of ways (eg. by subject area, Instructor, general time of day, etc.) We will; focus on the “Instructional Method” selection area. Within this menu there is an option for:

**Dist Learn Asynch**: This option will list all *Fully Online* courses that are currently scheduled for the Term that you selected.

**Dist Learn Asynch (Blended)**: This option will list all *Blended* courses that are currently scheduled for the Term that you selected.

Select the option that you are interested in and click the “Class Search” button at the bottom of the screen. (In the example below, we selected “Dist Learn Asynch”. This will return a listing of all Fully Online courses for the term we selected.

Below is an example of what the Class Schedule Listing might look like. Notice the section number of each course listed contains a “Y”. This indicates a Fully Online Section. Had we chosen “Dist Learn Asynch (Blended), the section number would contain the letter “B.”
