

Student Contract Agreement

I understand that:

- I am not performing community service as an employee of Broome Community College, but as a course specific requirement. I agree to satisfy the requirements of the specific service-learning placement to which I am assigned during the semester. If I fail to fulfill a commitment to a non-profit agency, not only do I inconvenience the agency, but also I have let down the population that I agreed to help.
- I agree to inform the instructor within three days of any change in this service-learning status at the time I am unable to spend at the site.
- I understand that Broome Community College is not liable for any accident or incident which may occur while I am placed at the agency.
