

Online, blended, and web supplemented courses are offered through Open SUNY and use the Blackboard learning management system. You can access your courses by going directly to the SUNY Broome Blackboard Website – <http://broome.open.suny.edu>

*NOTE: Blackboard courses will not be available to your students until you enable them. For instructions regarding enabling your course, please contact the Teaching Resource Center at 778-5611 or [tch\\_ctr@sunybroome.edu](mailto:tch_ctr@sunybroome.edu).*

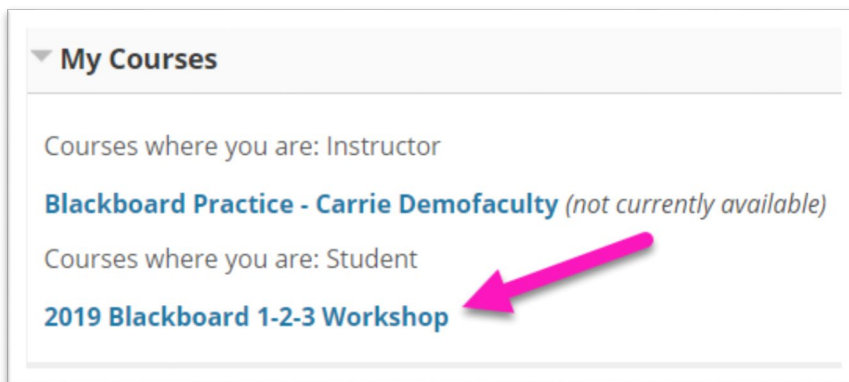

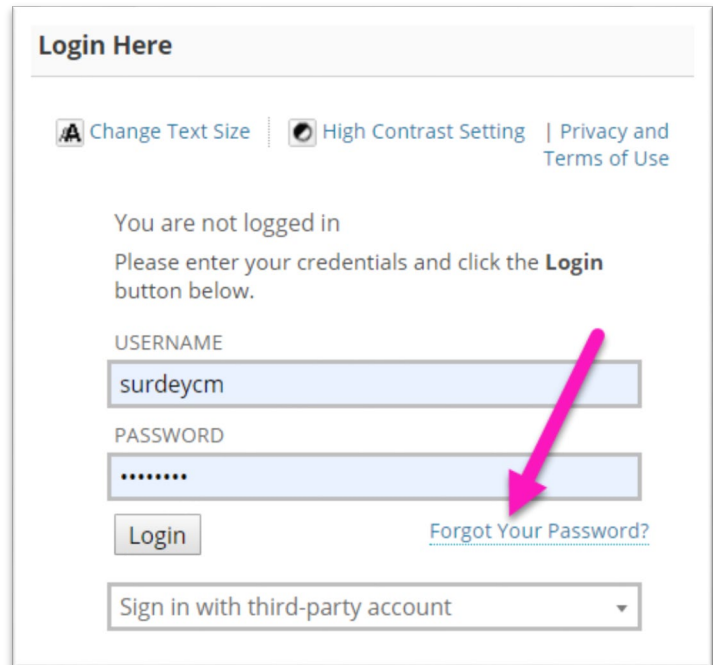

## To Access Your Courses:

Using a supported Internet browser, navigate to <https://broome.open.suny.edu>.

**Type your Username and Password** into the appropriate boxes and click the Login button.

**Note:** Your password to access Blackboard directly through this method may be different from your MyCollege password.

If you do not know your Blackboard Username or Password, click on the “**Forgot Your Password**” link indicated by the arrow and follow the onscreen instructions.

Once you enter Blackboard, you will see a box on the right side of your screen that lists each of your course shells. This box is called the “My Courses” module.” You can access your course by clicking on its name within the My Courses module.

**Note:** If you see the words *(not currently available)* next to a course name, it means that students do not currently have access to that course. As an instructor, however, you still have access.

**If you have problems logging in to Blackboard, please contact  
Information Technology Services for assistance.**
